Hawksbill Beach Resort is a unique and special Caribbean hideaway that you won't want to leave. Set in 37 acres of landscaped tropical gardens, the resort offers its guests a choice of four secluded beaches. So if you love the beach, Hawksbill is the perfect place for you. The resort offers a wide range of accommodation choices, including detached cottages set amongst the palms, or looking out across the sea. For larger parties, the colonial-style Great House on the tip of the Hawksbill peninsula, is a private suite with its own kitchen-bar, three bedrooms and panoramic sea views. If ever there was a Caribbean hideaway, it must be here at this lovely informal hotel in its palm shaded gardens on stunning Hawksbill Bay.

#### LOCATION

There is not one, but four separate beaches to choose from (the last and most hidden, is for sunbathing au naturel). Despite this secluded, romantic location, the capital of St. John's is only 15 minutes away. Just 10 miles from the V C Bird International airport, guests quickly find themselves in the paradise that is a stay at Hawksbill.
